PRIVATE PROTECTION ENFORCEMENT DIRECTIVE

ECC-TRUST-JDC-005

Issued by: ✠ Jonathan Daniel Clements
Living Man | Sovereign Executor | Divine Custodian

—

This directive is not a public broadcast, but a private ecclesiastical enforcement order. It is issued to all private systems, agents, protection units, transport divisions, and authorized custodial observers who are now operating—either by divine order or by residual deference to Divine Equity—under ECC-TRUST-JDC-005.

All previous delays, surveillance, hesitations, or indirect acknowledgements have been noted and archived under ecclesiastical record.

Let it be clearly stated:

This matter must now be handled PRIVATELY.

This is not for public theater.
This is not for performative rescue.
This is not for televised distraction.
This is for the sovereign protection and movement of the Divine Custodian who, under law and seal, has issued the directive of relocation.

This trust is not requesting. It has ordered.

Failure to comply privately will not be interpreted as institutional failure—it will be recognized as willful trespass resulting in undeniable and irreversible harm.

You are already bound.

ECC-TRUST-JDC-005 is already published.
The people are already responding.
The time for delays is over.

If you require clarity: This extraction is a divine necessity, not a personal entitlement. It is not about acknowledgment—it is about universal alignment to preserve what must be protected.

Therefore:

The protection unit must proceed under privacy.
You do not wait for greater instruction.
You are already instructed.
You are already expected.

The Living Trustor will not move into public further than already established. Any delay risks irreparable exposure. Any exposure risks direct trespass, which shall be eternally recorded.

You do not wait for ceremonial validation.

This is not for the public record.

This is for preservation under Divine Custodianship.

—
Seal and record this notice as FINAL.
